WEB ACTIVITY REPORT

Name: M. V. N. S. Charitha

Roll Number: 26000099

Section: CSE 2

ACTIVITY 1 • Adventure and Trekking Website

ACTIVITY 2 • Doctor Appointment Booking Interface

ACTIVITY 3 • Student Academic Dashboard

Web Development Activities

ACTIVITY 1: Adventure and Trekking Website

Aim

To create a website that presents trekking trips, equipment requirements, and safety guidelines in a clear and attractive layout.

Description

The website is titled “Adventure Trek.” A header introduces the website and a navigation bar links to the main sections. A hero section welcomes visitors and encourages them to explore trips. Trip cards show a picture, difficulty level, duration, and price. Further sections list essential equipment and safety advice.

Main Features

• Header and navigation links for Home, Trekking Trips, Equipment, and Safety.

• Hero area with the heading “Discover the Beauty of Mountains” and an Explore Trips button.

• Three trip cards: Mountain Trek, Forest Adventure, and Camping Trip.

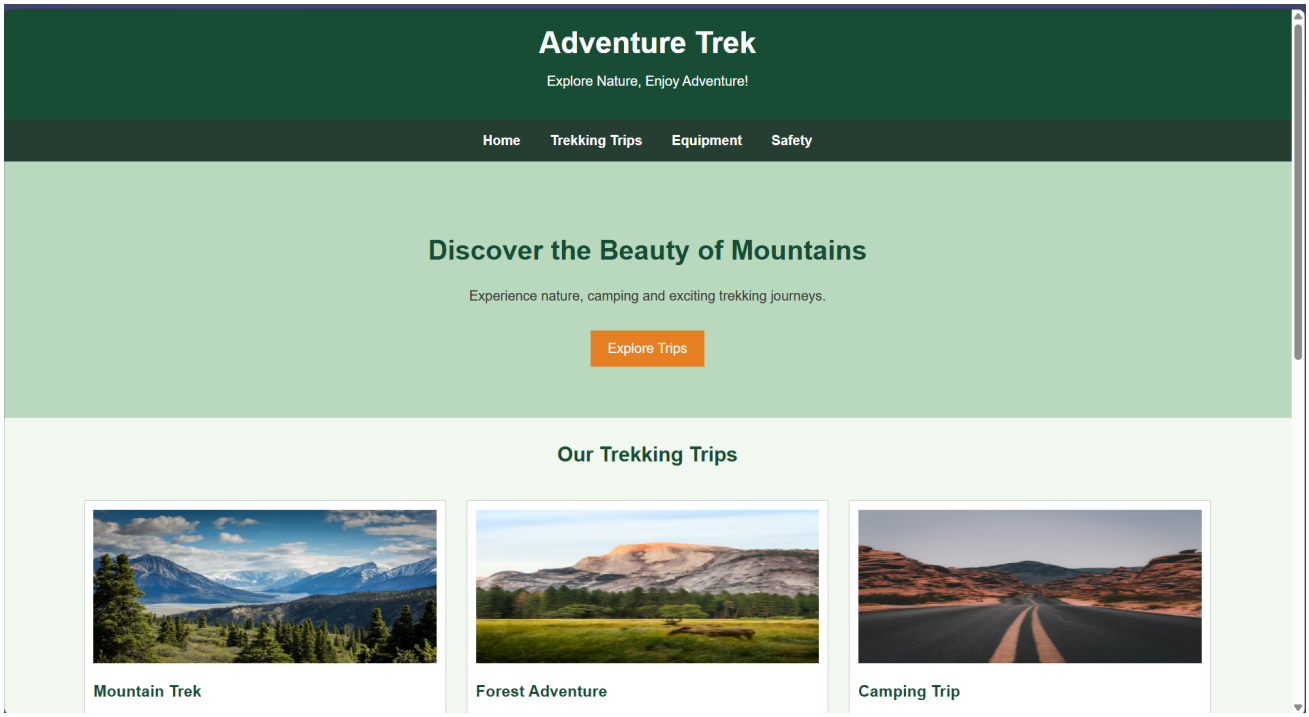

• Equipment checklist including a backpack, water bottle, trekking shoes, first-aid kit, and snacks.

• Safety guidelines reminding visitors to follow the trek leader, carry water, stay with the group, check weather, and keep the environment clean.

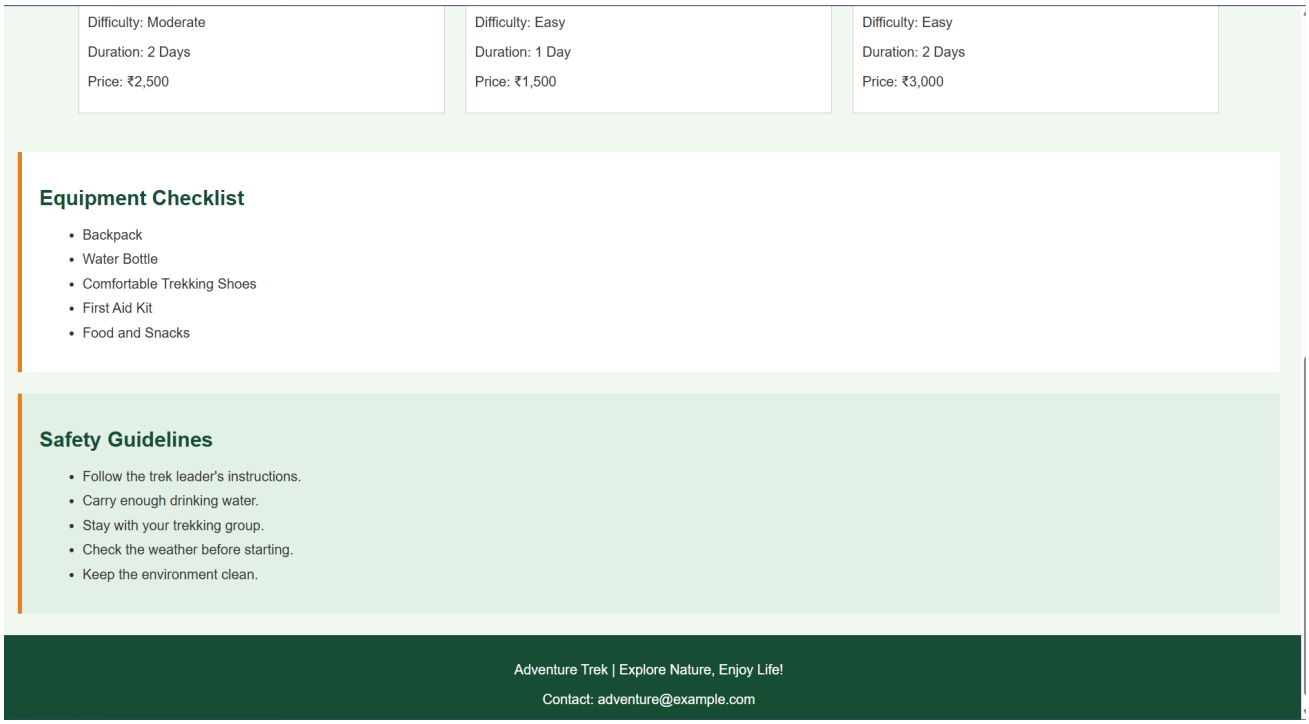

• Footer with website tagline and contact email.

Working / Output

The page displays the sections and information described above. The screenshots below show the visible output of the website.

Screenshot 1: Header, navigation, hero section, and trekking trip cards.

Screenshot 2: Equipment checklist, safety guidelines, and footer.

ACTIVITY 2: Doctor Appointment Booking Interface

Aim

To design a clinic website that helps visitors view doctors and enter the details needed to request an appointment.

Description

The page is titled “HealthCare Clinic.” It includes a clinic header and navigation bar, a welcome section, doctor profile cards, an appointment form, and contact information. Each doctor card provides a name, specialization, experience, available hours, and consultation fee. The form collects patient details and appointment preferences.

Main Features

• Clinic header and navigation links for Home, Our Doctors, Book Appointment, and Contact.

• Welcome section with a Book Now button.

• Three doctor profiles: Dr. Rahul Sharma, Dr. Priya Reddy, and Dr. Arjun Kumar.

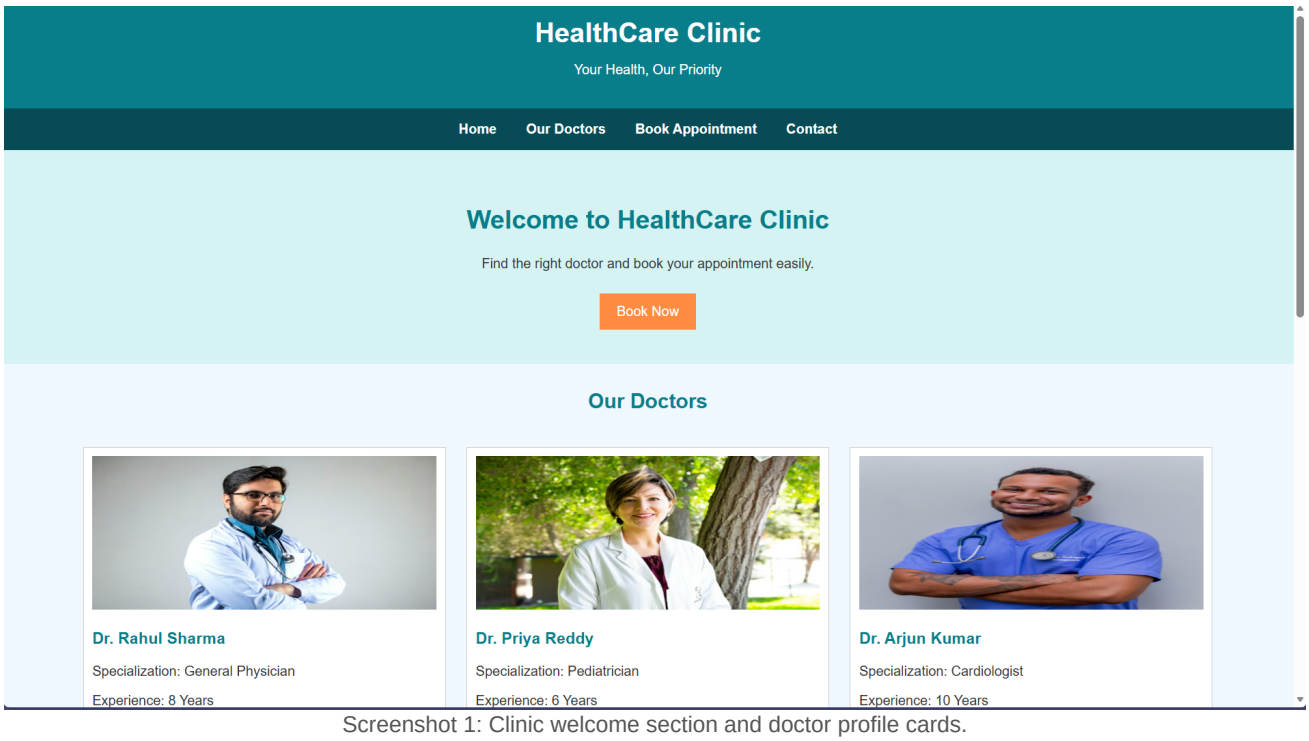

• Appointment form with patient name, email, doctor selection, date, and time fields.

• Contact section with email, phone number, and address.

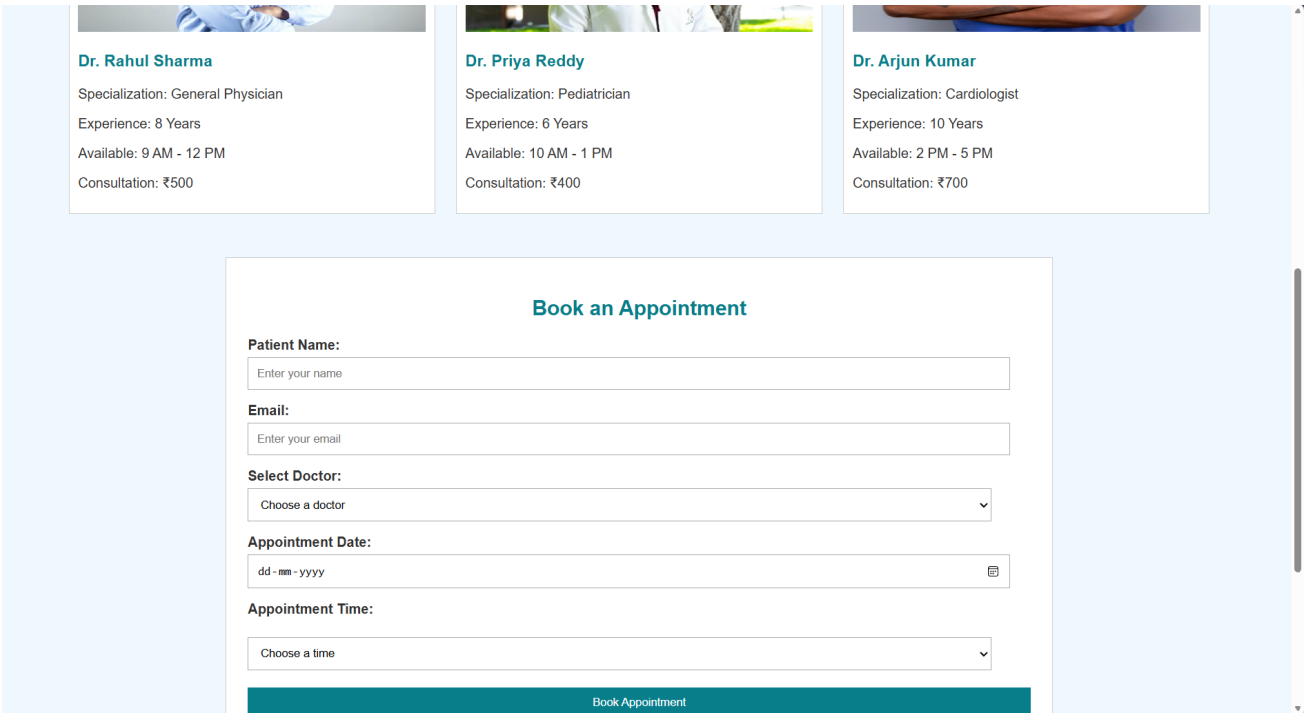

• Footer with the clinic name and a health-related tagline.

Working / Output

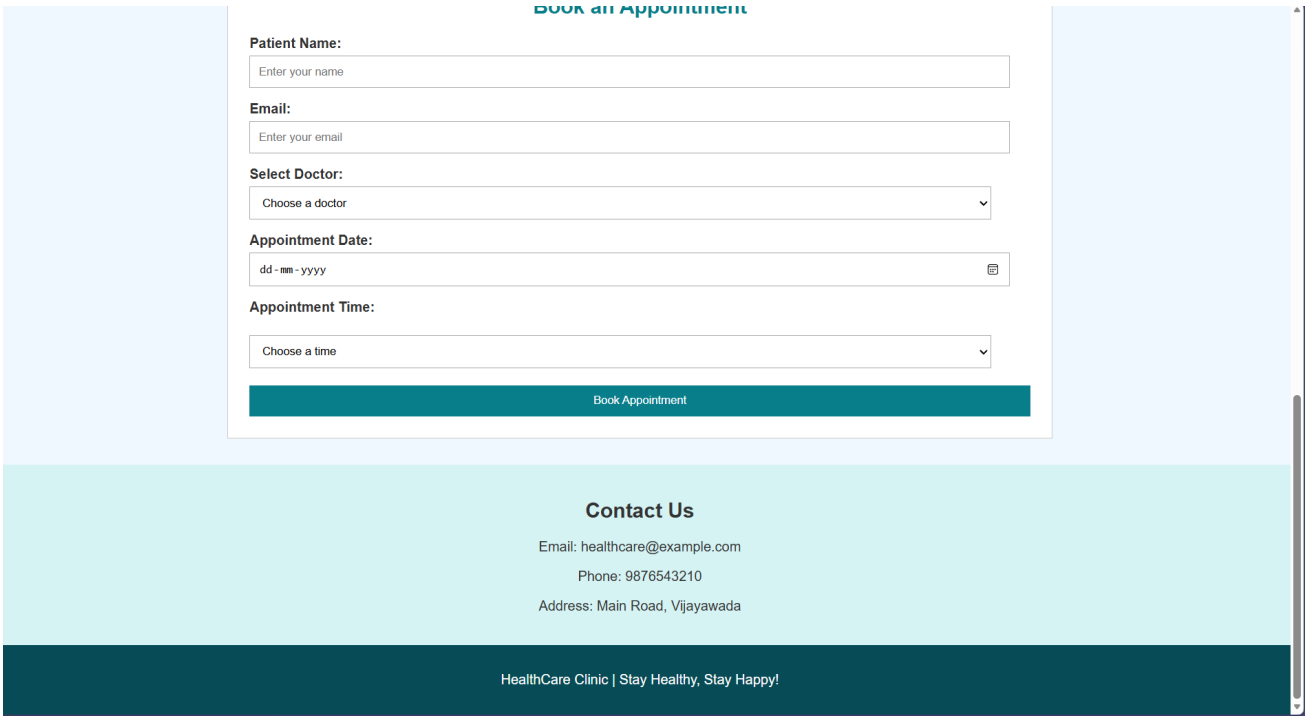

The page displays the sections and information described above. The screenshots below show the visible output of the website.

Screenshot 2: Appointment form with patient and appointment fields.

Screenshot 3: Appointment form and clinic contact details.

ACTIVITY 3: Student Academic Dashboard

Aim

To build a student dashboard that organizes academic information such as profile details, marks, attendance, subjects, exam dates, and announcements.

Description

The dashboard uses a left-side navigation panel and a main content area. Summary cards display CGPA, attendance, total subjects, and semester. Separate panels show student details, semester results, attendance percentages, subject information, examination schedule, and announcements.

Main Features

• Sidebar menu for Dashboard, Student Details, Semester Results, Attendance, Subjects, Exam Schedule, and Announcements.

• Summary cards displaying CGPA, attendance, number of subjects, and semester.

• Student details panel with name, roll number, course, and year.

• Semester results table showing subject, marks, grade, and result.

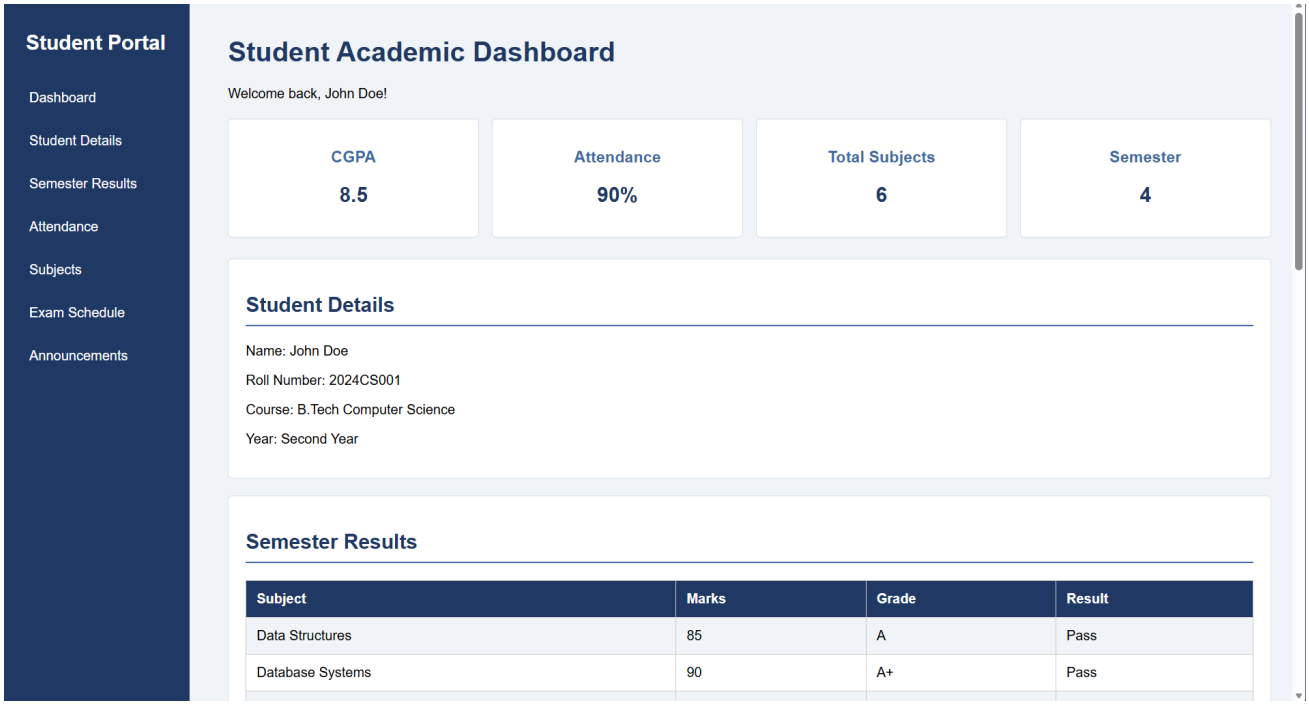

• Attendance bars and a subject information table with subject codes and credits.

• Examination schedule table showing dates, subjects, and times.

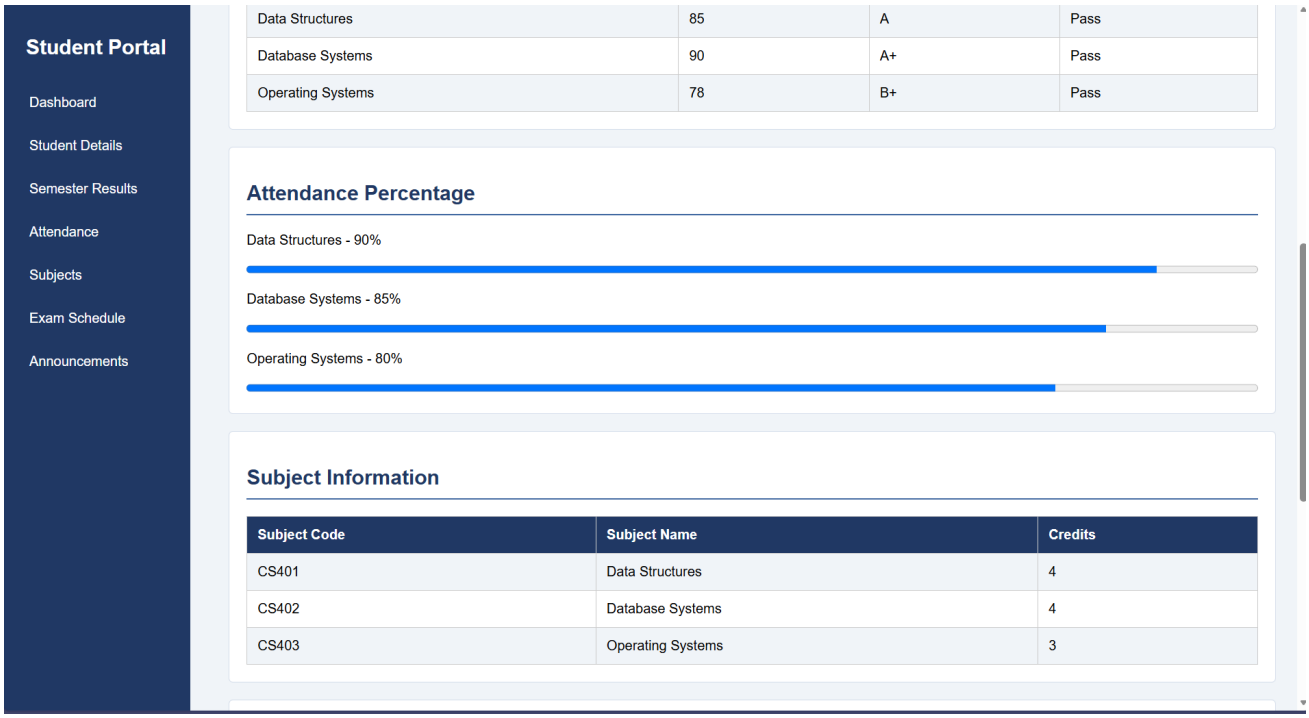

• Announcements section for timetable updates, assignment deadlines, and attendance reminders.

Working / Output

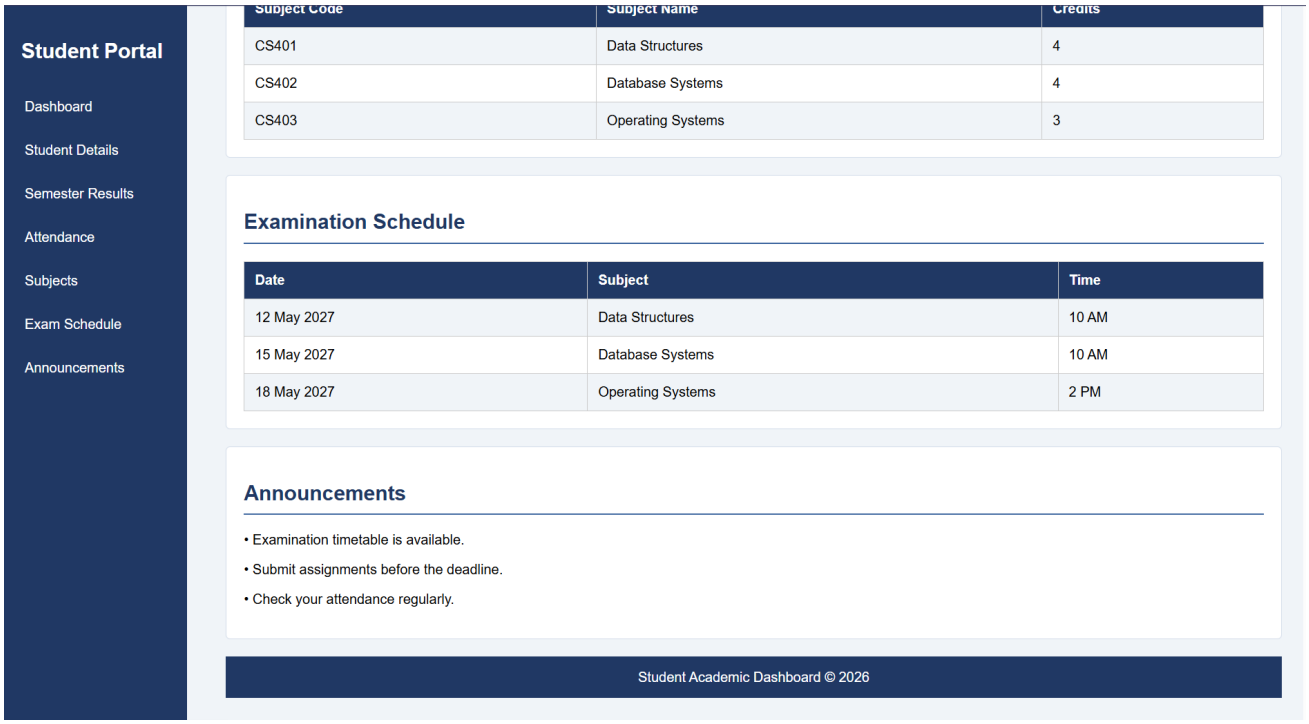

The page displays the sections and information described above. The screenshots below show the visible output of the website.

Screenshot 1: Dashboard summary cards, student details, and semester results.

Screenshot 2: Attendance percentages and subject information table.

Screenshot 3: Examination schedule, announcements, and footer.
